(input N/A if you have not used any) *

Most of the time it provides a general piece of code that you have to read, understand, and change bits and pieces to ensure the entire app works well together with it. Never blindly trust the code it provides when you have to put it in a larger code base.

13. Did you at any point abandon using AI tools and seek other resources? Explain your answer. *

What made you abandon using the AI tool? Were you more successful using other resources?
Input N/A if you have not used any

Yes, when i needed to know how to format specific strings for API Calls. Went to documentation pages of APIs.
